<b>5. RESOLUTION 375 - ELECTION FOR OPEN BOARD POSITIONS IN CONSOLIDATION WITH DISTRICT ELECTION 2024</b>	<i>Judith Bjorndal, MD</i>	Action
Resolution passed with unanimous roll call vote: “AYE” Bjorndal, “AYE” Kornblatt Idell, “AYE” Kalos, “AYE” Boerum, “AYE” Myatt Lee		
<b>6. CHIEF OF STAFF REPORT</b>	<i>Dr. Ako Walther</i>	Inform
Dr. Walther presented Chief of Staff report. ED care feedback was very positive with about a 10% response rate. Overall trend of above average performance compared to CA state average for Ambulatory Surgery Care provider overall and HCAHPS Doctors Domain Performance. Ongoing efforts are made to improve collaboration with local primary care providers and enhance care coordination despite challenges in staffing and patient transfers. Additionally, updates on performance		

improvement initiatives and pharmacy guidelines are discussed, with specific changes in the formulary noted. Dr. Walther set goals and made progress to build stronger relationships among staff, improve patient flow, and ensure seamless transitions from emergency to inpatient care.		
<b>7. SEISMIC UPDATE: Hospital Council – Northern and Central California</b>	<i>Meghan Hardin, Regional Vice President Bryan Bucklew, President &amp; CEO</i>	Inform
Bryan Bucklew discussed the significance of a proposed bill (1432) that grants hospitals up to a five-year extension for construction projects necessary to meet seismic compliance standards. The administration has full discretion over these extensions based on hospital needs and their impact on patient care. The bill also mandates transparency, requiring public disclosure of financial plans and missed milestones. Bucklew highlights the importance of cooperation between hospitals and the state, as well as potential penalties for non-compliance. Though optimistic about the bill’s passage, he stresses that it won’t solve all issues, with challenges like hospital finances and access to care still remaining.		
<b>8. ANCILLARY SERVICES ANNUAL REPORT</b>	<i>Dawn Kuwahara, RN BSN</i>	Inform
Kuwahara highlighted various departments and initiatives within the hospital, including the addition of a surgeons clinic, staff metrics, quality improvement goals, and staffing challenges. Notable achievements include wound care improvements, patient satisfaction in imaging and physical therapy, and community engagement projects such as flu clinics and diabetes fairs. A significant focus was on turnover, especially in patient access, where many staff members pursued further education in healthcare fields. Future plans involve expanding physical therapy space, upgrading lab equipment, and moving the MRI to a permanent location. The report emphasized professional growth, community involvement, and ongoing efforts to meet quality goals.		
<b>9. ICU PROJECT BID and BUDGET</b>	<i>Kimberly Drummond</i>	Action
Drummond outlined the project to replace the ICU nurse station. After a public bidding process, the construction cost came in lower than expected at \$302,000, reducing the overall budget to \$630,000. The project will update the nurse station with modern furniture, enhance patient rooms, improve emergency power availability, and address compliance issues. It is expected to begin in late September and finish by the year's end. Drummond also discussed risks related to delays and contractor costs.	<b>MOTION:</b> 1. Approve budget of \$630k by Boerum, second by Kalos. All in favor. 2. As stated in memo, approved to accept the project bid of \$302k by Boerum, second by Kalos. All in favor.	
<b>10. CEO REPORT</b>	<i>John Hennelly</i>	Inform
Strong July to open fiscal year. New MRI open and running and building volume. CMO recruitment continues with second panel and is promising. New ED recruitment for the foundation. Physical therapy projects continues, funding in progress. A community accident caused a power outage in the last month but most critical services are on emergency backup power. New CT needs to be on emergency power – delayed to October. The hospital is hosting events focused on active aging and community engagement throughout September.		
<b>11. CMO UPDATE</b>	<i>Sabrina Kidd, MD</i>	Inform

Kidd provided updates on the renewal of major contracts for anesthesia and other services. An exciting new partnership with the Hannah Center aims to enhance care for mental health patients in the emergency department, with future plans to involve psychiatrists. Dr. Walter has successfully returned to surgery, while the departure of Director of Quality, Kylie Cooper, has prompted an ongoing recruitment process for her replacement, with Jessica Winkler and others filling in the interim.		
<b>12. RESOLUTION 376 - SETTING TAX RATE FOR FY24-25 GO BONDS</b>	<i>Ben Armfield</i>	Action
Resolution passed with unanimous roll call vote: “AYE” Bjorndal, “AYE” Kornblatt Idell, “AYE” Kalos, “AYE” Boerum, “AYE” Myatt Lee		
<b>13. BANK RELATIONSHIP UPDATE</b> • New Relationship Update • US Bank LOC Extension	<i>Ben Armfield</i>	Action
Armfield presented a revised proposal from Summit State Bank. Improved terms, specifically from one year term to seven. Revised terms exceeded expectations and are supported by the Finance Committee.	<b>MOTION:</b> by Boerum to approve, 2 <sup>nd</sup> by Myatt Lee. All in favor.	
Armfield presented US Bank LOC extension to 90 days.	<b>MOTION:</b> by Boerum to approve, 2 <sup>nd</sup> by Myatt Lee. All in favor.	
<b>14. FINANCIALS FOR MONTH END JULY 2024</b>	<i>Ben Armfield</i>	Inform
Armfield presented July’s positive financials, mentioning a change in the accounting method for IGT funding. Previously, SVH recognized all estimated revenue and expenses at once upon fee payment, but as of July, they are accruing monthly amounts for a smoother and more accurate P&L. This adjustment will have a \$500,000 monthly impact moving forward. Additionally, Armfield highlighted progress in their audit, which is expected to be completed earlier than previous years, crediting Lois Fruzynski, SVH Accounting Manager, for her significant contribution to this effort.		
<b>15. REACTIVATING THE JOINT CONFERENCE COMMITTEE AND ENGAGEMENT WITH THE MEDICAL EXECUTIVE COMMITTEE</b>	<i>Bill Boerum</i>	Action
Postponed to October’s meeting.		
<b>16. COMMITTEE UPDATES</b>	<i>Bjorndal</i>	Inform/Action

<b>4. ICU CONTRACT AWARD</b>	<i>Kimberly Drummond</i>	Action
	Drummond presented ICU project scope and budget. HCAI potential risk. Discussion was robust over the need for full transparency and understanding of the full scope of what the Finance Committee is recommending for approval.	<b>MOTION:</b> to recommend the BOD approve the \$302k bid from Ridgeview Builders and an overall budget of \$630k. Motion by Bloch, second by Gerlach. All in favor

	Motion to recommend the BOD approve the \$302k bid from Ridgeview Builders and an overall budget of \$630k. This budget number subtracts the difference in construction cost budget and bid (\$383k - \$302k = \$81k).	
<b>5. RESOLUTION # 379 - SETTING TAX RATE FOR FY24-25 GO BONDS</b>	<i>Ben Armfield</i>	Action
	Armfield presented Resolution #379.	<b>MOTION:</b> to recommend to the BOD to approve by Myatt Lee, second by Gerlach. All in favor
<b>6. BANK RELATIONSHIP UPDATE</b>	<i>Ben Armfield</i>	Action
a. New Relationship Update b. US Bank LOC Extension	a. Armfield presented updates to the committee regarding two proposals, with a focus on the revised offer from Summit Bank. Key changes included extending the maturity of the line of credit from one to seven years, subject to annual renewal based on financial covenants. The interest rate was clarified as prime plus 1.5%, with a floor of 8%. A comparison was made between the old and new terms, noting improvements in loan fees and debt service coverage. Recommended BOD approve Summit Bank proposal, pending clarifications and further negotiations regarding the interest rate floor. <b>Motion by Bloch, 2nd by Gerlach</b> b. U.S. Bank declined to submit a proposal but agreed to extend the current line of credit for 90 days, from the end of August to the end of November. The only change would be the maturity date. <b>Motion by Bloch, 2nd by Myatt Lee</b>	<b>MOTIONS:</b> a. & b. recommended to the BOD to approve. All in favor.
<b>7. FINANCIAL REPORTS FOR MONTH END JULY 2024</b>	<i>Ben Armfield</i>	Inform
	First month of fiscal year '25 - July 2024 had a strong start, with revenues exceeding expectations by over 10%, largely due to higher emergency room and physical therapy visits. While surgeries were slightly below budget, the hospital's overall financial performance improved, with operating revenues reaching \$5.25 million and expenses staying close to budget. The hospital also anticipates growth in orthopedic surgeries and MRI usage following recent equipment upgrades.

Winkler & Ehret presented update for the Emergency Department:		

<ol style="list-style-type: none"> <li>1. Key Performance Metrics: <ul style="list-style-type: none"> <li>• Average patient admissions: 8.3%, transfers to higher care: 9%, left without being seen (LWBS): 1-2%, and against medical advice (AMA): 1%.</li> </ul> </li> <li>2. Quality Improvement Initiatives: <ul style="list-style-type: none"> <li>• Stroke and sepsis bundles were emphasized, with a focus on prompt coordination with UCSF for stroke cases.</li> <li>• The sepsis bundle, blood culture contamination (currently at 3.5%), and continuous observation for high-risk patients were also discussed.</li> </ul> </li> <li>3. Challenges &amp; Solutions: <ul style="list-style-type: none"> <li>• Issues with blood culture contamination prompted reinforcement of best practices.</li> <li>• Length of stay for psychiatric patients remains a challenge, with efforts to improve collaboration with county services.</li> </ul> </li> <li>4. Process Improvements: <ul style="list-style-type: none"> <li>• Patient throughput - reduced median time to triage to 9 mins and time to see physicians to 10-12 mins.</li> <li>• The new ED Director, Ehret, has focused on team building, training, and optimizing patient flow.</li> </ul> </li> <li>5. Future Plans: <ul style="list-style-type: none"> <li>• Continued focus on reducing LWBS rates, improving throughput, and enhancing collaboration with EMS and fire departments through drills and shared competencies.</li> </ul> </li> </ol>		
<b>4. INPATIENT SERVICES QA/PI</b>	<i>Jane Taylor, MSN RN CENP, SVH Director of Patient Care Services</i>	INFORM
<p>Taylor, Director of Patient Care Services, discussed progress on four key quality improvement goals. These include creating individualized care plans for every patient, ensuring comprehensive discharge education, improving hand hygiene, and enhancing patient mobility. Significant progress has been made, particularly in individualized care, with 85-95% compliance. Hand hygiene remains a challenge, with compliance at 60-70%, despite monitoring efforts. Taylor emphasized the importance of ongoing staff education and collaboration across departments. Additional improvements include reduced use of patient restraints and decreased length of stay, particularly for female patients, enhancing overall care quality.</p>		
<b>6. QUALITY INDICATOR PERFORMANCE &amp; PLAN</b>	<i>Jessica Winkler, DNP, RN, NEA-BC, CCRN-K, SVH CNO</i>	INFORM
<p>Winkler presented the Quality department's May 2024 data. Key points included that mortality and readmission rates are within target, while one patient safety complication is still under review due to confusion about the timing of a pressure ulcer. Adverse events were minimal, with no significant medication errors or infections reported. Some falls occurred but without injury, and sepsis metrics showed a minor issue with order timing. Patient satisfaction scores (HCAHPS) reflect good communication with doctors but indicate areas for improvement in responsiveness and hospital environment. Overall, SVH maintains high ratings across outpatient and inpatient services.</p>

## **PURPOSE:**

To define the process in which medications and treatments to manage hypersensitivity reactions can be ordered per protocol.

## **DEFINITIONS:**

- **Infusion Reaction:** symptoms or side effects that occur when the immune system reacts to an intravenous medication infusion.
- **Hypersensitivity Reaction:** when a particular condition or substance causes the immune system to overreact.
- **MAR:** Medication Administration Record
- **CPOE:** Computerized Physician Order Entry
- **Order Set:** a standardized group of patient care orders

## **POLICY:**

- When a prescriber orders hypersensitivity reaction medications and /or treatment per protocol, a standard set of medication orders will be placed on the patient's MAR for use by healthcare providers in the case of a hypersensitivity reaction or infusion reaction.

## **PROCEDURE:**

- **Outpatient infusion visits:** When hypersensitivity reaction medications/treatment per protocol is ordered by a prescriber for an outpatient infusion visit, the pharmacist will activate the CPOE hypersensitivity reaction order set that is embedded in the infusion specific order set and assign it in the medical record to the prescriber's name. This order set contains medications and treatments needed to manage a patient having a hypersensitivity reaction.
- For visits other than outpatient infusions, when hypersensitivity reaction medications/treatment per protocol is ordered by a prescriber, the pharmacist will enter the medication orders included in the order set specific to Adult Hypersensitivity Reactions and assign it in the medical record to the prescriber's name. This order set contains medications and treatments needed to manage a patient having a hypersensitivity reaction.

## **NEW POLICY**

### **WHY:**

Delirium is a serious and common syndrome among hospitalized older adults, characterized by sudden and severe confusion due to rapid changes in brain function. This condition is not only prevalent but also associated with high rates of return to Emergency Department visits, readmissions, and morbidity and mortality rates, significantly impacting the health and wellbeing of patients.

This policy aligns with the principles of an Age-Friendly Health System, particularly emphasizing the “Mentation” component. The 4Ms framework is designed to ensure that care for older adults is tailored to their specific needs and circumstances, promoting better outcomes and enhancing quality of life.

Additionally, this policy and the implementation of a delirium screening protocol is a crucial step in becoming a certified Geriatric Emergency Department. This certification signifies a commitment to providing specialized care that meets the unique needs of older adults. A Geriatric Emergency Department focuses on creating a safe, effective, and compassionate environment for older adults, addressing common geriatric syndromes such as delirium with appropriate, evidence-based interventions.

The purpose of this policy is to systematically identify and assess delirium in patients presenting to the Emergency Department (ED) and those who are admitted to the medical/surgical or intensive care units and to initiate appropriate follow-up actions

## **PURPOSE:**

The purpose of this policy is to systematically identify and assess delirium in patients presenting to the Emergency Department (ED) and those who are admitted to the medical/surgical (Med/Surg) or intensive care units (ICU) and to initiate appropriate follow-up actions.

## **POLICY:**

Sonoma Valley Hospital is committed to the recognition and treatment of delirium in all patients by screening appropriately in the ED, ICU and Med/Surg units. All patients meeting the outlined criteria will be assessed for delirium using the Confusion Assessment Method (CAM) or Confusion Assessment Method – ICU (CAM-ICU). Care for patients with active delirium will include the Delirium Order Set for comprehensive management.

## **PROCEDURE:**

### **EMERGENCY DEPARTMENT Screening Criteria**

- All patients aged 65 years and older with any of the following:
  - a known history of cognitive impairment, dementia, or delirium,
  - altered mental status or acute changes in behavior,
  - common geriatric emergency conditions that are known risk factors for delirium, including:
    - Urinary tract infection (UTI)
    - Pneumonia
    - Dehydration
    - Acute pain or fractures
    - Electrolyte imbalances
    - Polypharmacy
    - Recent surgery or anesthesia
    - Severe illness or infection

### **Training and Education**

- All healthcare providers in the emergency department will receive training on recognizing and managing delirium.
- All Emergency Department Registered Nurses will receive training on the use of the Confusion Assessment Method (CAM) and will be familiar with the criteria for delirium.

### **Initial Assessment**

- The assigned RN will conduct a brief initial assessment of all eligible patients to identify those who may be at risk for delirium using the screening criteria above during the initial assessment. It will be documented in the initial progress note.

### **Structured Delirium Screening**

- For patients identified as at risk, the RN will conduct a structured delirium screening using the Confusion Assessment Method (CAM) upon initial assessment of a patient and as needed for change in mental status.

### **Follow-Up Actions**

- If a patient is CAM positive, initiate the following follow-up actions:
  - Notify the attending physician of the positive CAM assessment.
  - Initiate the Nursing Delirium Order Set for comprehensive non-pharmacologic nurse-driven management of delirium.
- If a patient is CAM negative, resume usual care.
- 

## **MEDICAL/SURGICAL AND INTENSIVE CARE UNITS**

### **Screening Criteria**

- All patients aged 65 years and older.
- Patients with a known history of cognitive impairment, dementia, or delirium.
- Patients with altered mental status or acute changes in behavior.

### **Training and Education**

- All healthcare providers involved in the care of patients will receive training on delirium.
- All registered nurses will receive training on the use of the Confusion Assessment Method (CAM) and will be familiar with the criteria for delirium.

### **Initial Assessment**

- The assigned RN will conduct a brief initial assessment of all eligible patients to identify those who may be at risk for delirium using the screening criteria above upon admission to the Medical/Surgical or Intensive Care Unit. This will be documented in the initial RN assessment progress note.

### **Structured Delirium Screening**

- For patients identified as at risk, the RN will conduct a structured delirium screening using the Confusion Assessment Method (CAM). It will be conducted upon initial assessment of a patient, once every shift, and as needed for change in mental status.

## Follow-Up Actions

- If a patient is CAM positive, initiate the following follow-up actions:
  - Notify the attending physician of the positive CAM assessment.
  - Initiate the Nursing Delirium Order Set for comprehensive non-pharmacologic nurse-driven management of delirium.
- If a patient is CAM negative, resume usual care.

To: Board of Directors – Sonoma Valley Health Care District  
From: Bill Boerum, Board Member  
Subject: Reactivate Joint Conference Committee & Reengage with Medical Executive Committee

September 5, 2024

**Background:**

When I came on the Board in March 2007, there was the practice of two Board Members attending the monthly Medical Executive Committee meetings. One such Member was a permanent representative of the Board, the Board Chair during his/her term of office. The other representative position was rotational through the Board each having a turn. There was and is today, two parts to the meeting: the general session (basically reports by the department heads and other discussion); the other part was private (basically discussions and matters relating to clinical performance and peer review). Both of the Board representatives were excused from that second session. The general format of the meetings continues to this day, but without Board participation.

At some point in years gone by, a previous CEO concluded that it was not necessary for Board Members to attend the monthly Med Exec meetings, and in recommended to the Board, a vote taken – 4 to 1 as I recall – and the Board ceased to attend the meetings. It would be pejorative to say why the CEO made that recommendation, but essentially it cut off an important channel of direct dialogue, communication and observation (and learnings) by the Board of the workings of the Med Exec Committee and of clinical matters under discussion by the Committee. Part of the rationalization of suspending the participation was that it was burdensome for the Board Members – an argument which was persuasive from the CEO to the Board. I found attending such meetings invaluable in understanding what was going on in the hospital and the challenges in treatment of the patient population. The Board Chair had the opportunity to report on decisions and discussion by the Board from its recent meeting, which I did during my three years as Board Chair. This gave the Med Exec Committee a direct view into current matters before the Board.

Since the suspension of Board Member participation, the only channel of communication between the Board and the Med Exec Committee are reports at the quarterly dinner meetings. Though there are reports by department heads, in effect, these are social events with hardly any questions or issues raised.

I believe it is essential that the Board have routine, direct access to the medical staff rather than only relying on reports by the CEO. This is especially critical with three new Board Members coming on in December. Within the Medical Staff By-Laws (its 105 pages recently approved by Med Exec and the Board as the governing authority) there is provision for a resumption of Board Member participation in the monthly meetings. Additionally, there is provision for the activation of the “Joint Conference Committee.” Attached is the relevant one-page section of the By-Laws. This bears reading for its importance for the Board’s active oversight of the medical staff as well as its direct understanding of the performance of the medical staff. I have reason to believe that the Chief of Staff of the Medical Executive Committee would be agreeable to participation by the Board in the monthly meetings.

I believe it is essential that a newly composed Board – with three new Members – re-engage directly with the Med Exec Committee as part of its governance oversight as well as revive its legitimate role via the Joint Conference Committee as stipulated in the By-Laws.

**Recommendations:**

- The current, incumbent Board at this meeting give active discussion to the issues raised, herein;
- The current Board resolve to resume participation in the monthly meetings; and,
- The incumbent Board Chair enter into discussion with the Chief of Staff to plan for implementation of the role of the Joint Conference Committee.

**Financial Impact:**

There is no financial impact for implementing these governance practices.

## COMMITTEES

---

8.1-11      **Accountability**

All committees shall be accountable to the Medical Executive Committee.

8.1      **Joint Conference Committee**

8.2-1      **Composition**

The Joint Conference Committee shall be composed of six members: the Chief of Staff, the Vice-Chief of Staff, two members of the hospital's District Board, the Chief Medical Officer, and the Chief Executive Officer. All members are voting members. The person serving as the Joint Conference Committee chair shall alternate annually between the Chief of Staff and one of the District Board representatives.

8.2-2      **Duties and Meeting Frequency**

- a. This committee shall serve as a focal point for furthering an understanding of the roles, relationships, and responsibilities of the District Board, administration, and the Medical Staff. It may also serve as a forum for discussing any hospital matters regarding the provision of patient care. It shall meet as often as necessary to fulfill its responsibilities. Any member of the committee shall have the authority to place matters on the agenda for consideration by the committee.
- b. The committee may also serve as the initial forum for exercise of the meet and confer provisions contemplated by Section 14.6 of these bylaws; provided, however, that upon request of at least three committee members, a neutral mediator, acceptable to both contingents, shall be engaged to assist in dispute resolution.

8.2-3      **Accountability**

The Joint Conference Committee is directly accountable to the Medical Executive Committee and to the District Board.

**TO:** SVHCD Board of Directors

**FROM:** SVH Medical Executive Committee

**RE:** BOD Memo dated 9/5/2024 - Reactivate Joint Conference Committee & Reengage with Medical Executive Committee

**Dear Board of Directors,**

The SVH Medical Executive Committee (MEC) has reviewed the Memo from the September 5<sup>th</sup> BOD meeting regarding engaging with the MEC. After careful review of the Medical Staff Bylaws, the MEC has unanimously agreed upon the following:

1. The Joint Conference Committee may be convened as needed per Section 8.2 of the Bylaws. This committee is comprised of equal representation from the BOD, MEC, and Administration and meets on an as needed basis. Any member of the committee may place matters on the agenda for consideration by the committee.
2. Per the Bylaws, Section 8.3, the composition of the Medical Executive Committee does not include members of the Board of Directors, however, the MEC may, from time to time, invite “others”, including one or more members of the BOD, to attend regarding a particular agenda item.
3. Per the Medical Staff Bylaws, Section 13.5-4, the BOD may act as the Appeal Board for the Medical Staff. In such capacity, there is a potential for conflict of interest should the BOD also sit on the Medical Executive Committee.
4. There are numerous existing channels of communication between the Medical Staff and the Board of Directors including:
  - a. CMO: Per the Bylaws section 7.6, the CMO is the primary liaison between the Medical Staff and the BOD. The CMO reports monthly to the BOD.
  - b. Chief of Staff: the COS reports biannually to the BOD using a previously BOD approved template.
  - c. All-Medical Staff Meetings: All members of the BOD are invited to the bi-annual all-medical staff meetings.
  - d. Board Quality Committee: The Chief of Staff Elect is a member of the Board Quality Committee.
  - e. The Joint Conference Committee, as referenced above, and outlined in Section 8.2 of the Bylaws.

The MEC appreciates the BOD support and interest in open communication and looks forward to continued collaboration via the existing channels outlined above.

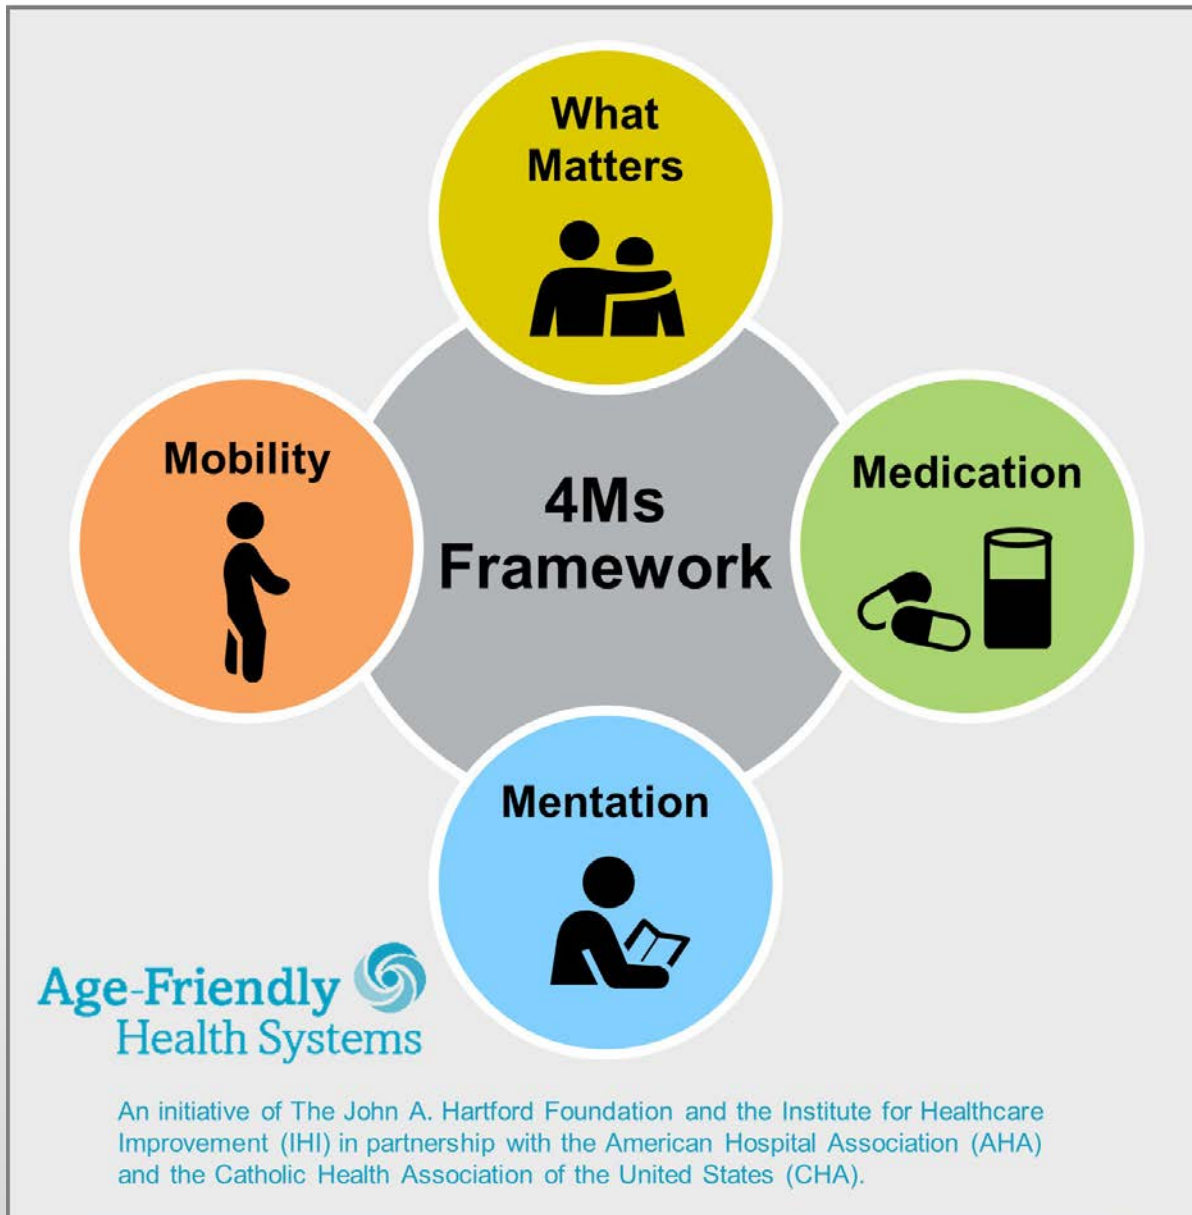

Sincerely,

Sonoma Valley Hospital Medical Executive Committee

## Strategic Plan

As related to our new **strategic plan**, our efforts in FY24 will focus on:

- *Campus Realignment*: discussions with UCSF regarding how they might participate, business plan development on SNF, Sub Acute, Memory Care service lines; working to engage a firm to assist with the development of a master facility plan.
- *Community Care*: market sizing for various community opportunities, urgent care, diagnostic center, specialty clinics, PT/OT
- *Sustainability*: business plan development on GI, cardiology, orthopedics, and UCSF clinical services
- *Seismic*: continued research on possible options. The hospital has engaged HED to assist in the assessment.

We are excited that the hospital was again recognized by the Lown Institute for its performance across various facets of outcomes, value and equity. The hospital ranked **2<sup>nd</sup> in the state** out of 258 and ranked **10<sup>th</sup> nationally** out of 2758 acute care hospitals.

[Sonoma Valley Health Care District - Lown Institute Hospital Index \(lownhospitalsindex.org\)](https://lownhospitalsindex.org)

## Operations

The hospital saw a second strong month in August to open FY25. Volumes met or exceeded budget in almost all areas except for inpatient. ER, imaging, and physical therapy led the way coupled with stabilizing surgical volumes. In concert with strong expense management, the hospital exceeded its performance targets. Operating Margin again exceeded budget, by 46%, (\$506k), EBDA exceeding budget by 119%, \$71k, and Net Income at \$6k on a budget of (\$433k).

The new 3-tesla MRI is open and seeing patients for a second month. Training has been completed and the team is working to refine the schedule and maximize referral sources. The magnet is housed in a temporary building, awaiting construction of its permanent location connected to the hospital next year.

Our Chief Medical Officer recruitment continues. The team has reviewed two slates of candidates and is working to identify qualified matches. Once qualified candidates are identified,

an internal search committee comprised of medical staff members and hospital management will work to select our next CMO.

Patient satisfaction continued to be strong. Survey results show high satisfaction with both care and service. A few examples:

*Todo muy bien. No tuve que esperar gran coso. El problema esta en mi.. no se inglés, pero me proporcionaron, interpretación y todo muy bien. GRACIAS POR SU ATENCIÓN. (Everything was fine. I didn't have to wait long. The problem is that I don't speak English, but they provided me with interpretation and everything was fine. THANK YOU FOR YOUR ATTENTION.)*

*I was a drop-in for a CT scan. Everything was handled so helpfully and efficiently. Tech (Lily) was great - friendly, helpful, and cheerful! Thanks to all for a stress free and easy appointment!*

*I continue to remark how lucky we are to have such an excellent hospital in Sonoma; and my experience today was no exception. Not only was the scheduling of four tests efficient, but the ease with which everything was executed today equally personable. Every technician was warm and knowledgeable; and I once again left the hospital grateful to be a patient.*

## Capital

The Outpatient Diagnostic Center (ODC) project is 75% complete. The temporary location for the new **MRI** is complete. The permanent MRI location under renovation. The demolition phase was awarded to GMH to take place through the fall. The project review with HCAI is proceeding.

The **ICU renovation** has been approved by HCAI. We expect construction to begin in October. The project is scheduled for completion in early 2025.

The PT project is proceeding. We expect a contract award to come to you in approximately 4 weeks. With a 16 week lead on the HVAC system, the project is now slated to be completed in the Spring. Fundraising has reached \$2m.

**September Highlights Included:**

1. Imaging Updates:
  - a. MRI: The much anticipated Prostate and Breast exams began the week of 9/23/24.
  - b. The CT is now scheduled to be connected to generator power in November. This will help support essential patient care, especially in the ED, during a power outage.
2. Personnel Updates
  - a. Director of Quality Recruitment is on-going.
  - b. CMO Recruitment is on-going. Dr. Kidd's last day with SVH is October 17<sup>th</sup>.
  - c. General Surgery Call: With the retirement of Dr. Lee and the departure of Dr. Kidd, the general surgery ED call pool is short providers. We are working with MarinHealth to stabilize the call pool.
3. Medical Staff work in September focused on revision of our Social Needs Admission Process as well as meetings to improve the overall workflow for admissions from the ED to inpatient. A great kick off meeting was also held with The Mental Health Hub at Hanna Center and our ED representatives.

To: SVHCD Board of Directors  
 From: Ben Armfield, Chief Financial Officer  
 Date: October 3, 2024  
 Subject: Resolution #377 - Parcel Tax Advance

**Recommendation:**

Recommend to the SVHCD Board of Directors that they approve both the resolution and executable agreement that would allow Sonoma Valley Health Care District to receive a one-month advance on the December 2024 payment of Parcel Tax funds in the amount of \$1,612,000.

**Justification:**

We are currently facing a significant amount of cash outlay this upcoming November. Specifically, the end of November as our Rate Range IGT matching fee pay-in is due by the 22<sup>nd</sup>. Our pay-in will require significant amounts of working capital to fund. Because of this, SVHCD management has been in discussions with Sonoma County about the possibility of receiving a one-month advance on the December 2024 allotment of parcel taxes that is due to the hospital – we are scheduled to receive 50% of our yearly allotment in December. This advance would provide quite a bit of flexibility and would allow the hospital to have the necessary cash flow to meet its operational commitments until other supplemental funds are received.

**Parcel Tax Advance Details:**

- SVHCD would be permitted to receive up to 85% of the December allotment of Parcel Tax revenues.
- The advance would be received right around November 1<sup>st</sup>.
- The interest rate on the advance would be at an annualized rate of 5.2%.
- The agreement has a maturity date of December 31, 2024. The parcel tax advance would be paid back, in full, as soon as the December allotment of parcel taxes are received.
- We estimate this would cost ~\$10,500 in interest expense.

FY25 Parcel Tax Allotment	\$	3,794,500
December 2024 Portion	\$	1,897,250
<b>Available to be Advanced</b>	<b>\$</b>	<b>1,612,663</b>

<b>Advance Requested</b>	<b>\$</b>	<b>1,612,000</b>

<b>Calculated Interest</b>	<b>\$</b>	<b>10,478</b>

**SVHCD Finance Committee:**

This item was brought forward to the SVHCD Finance Committee on 9/24, and the committee formally approved management’s recommendation for the SVHCD Board of Directors to approve management to move forward with this advance.

**A RESOLUTION OF THE BOARD OF DIRECTORS OF THE SONOMA VALLEY HEALTH CARE DISTRICT AUTHORIZING THE ISSUANCE OF A TAX AND REVENUE ANTICIPATION NOTE IN A PRINCIPAL AMOUNT NOT TO EXCEED \$1,612,000 AND AUTHORIZING THE PRESIDENT AND CHIEF EXECUTIVE OFFICER TO ENTER INTO A PARCEL TAX AGREEMENT WITH THE COUNTY OF SONOMA AUDITOR-CONTROLLER-TREASURER-TAX COLLECTOR ("ACTTC")**

THE BOARD OF DIRECTORS OF SONOMA VALLEY HEALTH CARE DISTRICT RESOLVES AS FOLLOWS:

**WHEREAS**, pursuant to Section 53850 *et seq.* of the Government Code of the State of California (the "Government Code") contained in Article 7.6, entitled "Temporary Borrowing," a healthcare district may borrow money by issuing notes (the "Notes") for any purpose for which the health care district is authorized to expend moneys, including but not limited to, current expenses, capital expenditures, investment and reinvestment, and the discharge of any obligation or indebtedness of the district; and

**WHEREAS**, pursuant to Section 53856 of the Government Code, the District may pledge its parcel tax revenue to the repayment of Notes, which shall be issued as a general obligation of the District, and to the extent not paid from the taxes pledged for the payment thereof, shall be paid with interest thereon from any other moneys of the District lawfully available therefor as required by Section 53857 of the Government Code; and

**WHEREAS**, the District desires to finance certain obligations incurred by the District in connection with prior operations and ongoing operations; and

**WHEREAS**, the District has determined that the sum of \$1,612,000 is needed to satisfy payment obligations of the District which the District anticipates will become payable prior to the receipt of anticipated parcel tax revenue, and that it is necessary that said sum be borrowed in anticipation of the receipt of taxes to be received by the District during Fiscal Year 2024-2025; and

**WHEREAS**, the District finds and determines that it is in the best interest of the District to finance its obligations through the issuance of tax and revenue anticipation notes and has determined to issue Sonoma Valley Health Care District Parcel Tax Revenue Anticipation Note, Series 2024 (the "Series 2024 Note"); and

**WHEREAS**, the Series 2024 Note shall mature on December 31, 2024, which is consistent with the requirement that repayment be made from available funds that have been received or accrued to the District within the fiscal year in which the Notes are issued, or in a succeeding fiscal year from funds accruing in the fiscal year of issuance; and

**WHEREAS**, the District wishes to provide authority to staff to enter into a parcel tax agreement with the Sonoma County.

**WHEREAS**, the purchaser of the Note, The Sonoma County Treasury Pool, through the Sonoma County Auditor-Controller-Treasurer-Tax Collector ("ACTTC"), has requested that the District enter into a Parcel Tax Agreement to ensure payment of the Note.

**NOW, THEREFORE**, be it known that the Board of Directors of the Sonoma Valley Health Care District resolves as follows:

**Section 1.** The Series 2024 Note may be issued in order to obtain moneys to carry out the District's purposes. The maximum principal amount of the Series 2024 Note which may be issued hereunder is limited to \$1,612,000.

**Section 2.** The Series 2024 Note shall be evidenced and issued in the principal amount of \$1,612,000. Registered ownership of the Series 2024 Note will be with the Sonoma County Treasury Pool, as purchaser of the Note, and shall not be transferred thereafter. The Series 2024 Note in the principal amount of \$1,612,000 constitutes a "note" and is being issued pursuant to the provisions of section 53854 of the California Government Code.

**Section 3.** The Series 2024 Note shall be dated as of November 1, 2024, and interest thereon shall be payable upon maturity. The Series 2024 Note shall mature on December 31, 2024, and shall bear interest at the rate of 5.20 percent per annum. If the District fails to pay the note when due, the ACTTC may retain enough of the parcel tax proceeds to satisfy the principle and interest.

**Section 4.** The Series 2024 Note shall be substantially in the form set forth in Exhibit A, attached hereto and by this reference incorporated herein.

**Section 5.** The Board of Directors have reviewed all proceedings heretofore taken relative to the authorization of the Series 2024 Note and has found, as a result of such review, and hereby finds and determines that all acts, conditions and things required by law to exist, happen or be performed precedent to and in the issuance of the Series 2024 Note do exist, have happened and have been performed in due time, form and manner as required by applicable law, and the District is now authorized, pursuant to each and every requirement of applicable law to issue the Series 2024 Note.

**Section 6.** The Series 2024 Note may be redeemed prior to Maturity at any time, without any premium.

**Section 7.** The District's obligation to pay the principal and interest on the Series 2024 Note shall be an obligation payable from parcel tax revenues and, to the extent parcel tax revenues are insufficient therefor, subject to any existing or future liens or encumbrances thereon, from any other available moneys of the District.

**Section 8.** The District's President and Chief Executive Officer, or designee, upon the advice of the District's legal counsel or special financial consultants, is hereby authorized to do any and all things and to execute, modify and deliver any and all documents that they may deem necessary in order to effectuate the transactions contemplated by this Resolution and to otherwise carry out the purposes of this Resolution. This authorization includes entering into a Parcel Tax Agreement with the County of Sonoma ACTTC, whereby the District agrees that the Sonoma County Auditor-Controller Treasurer-Tax Collector may retain sufficient proceeds of the December 2024 installment of the District's parcel tax, and, if necessary, from future installments, to satisfy the note, prior to allocating parcel tax proceeds to the District.

**Section 9.** This Resolution shall take effect immediately upon its adoption.

PARCEL TAX AGREEMENT BY AND BETWEEN  
COUNTY OF SONOMA AUDITOR-CONTROLLER-TREASURER-TAX COLLECTOR  
AND  
SONOMA VALLEY HEALTH CARE DISTRICT

THIS PARCEL TAX AGREEMENT ("Agreement"), is entered into by and between the COUNTY OF SONOMA AUDITOR-CONTROLLER-TREASURER-TAX COLLECTOR ("ACTTC"), and the SONOMA VALLEY HEALTH CARE DISTRICT ("District")  
(collectively referred to as the "Parties" herein).

Recitals

1. On November 2, 2021, voters approved a parcel tax levy on each taxable parcel of land within the District at an annual rate of \$250 per parcel per year for ten years ("Tax").
2. The Sonoma County Auditor-Controller Treasurer-Tax Collector ("ACTTC") is responsible for collecting the Tax at the same time that it collects ad valorem property taxes, and for distributing the Tax proceeds to the District.
3. The ACTTC has agreed to purchase from the District a tax and revenue anticipation note as an investment for the Sonoma County Treasury Pool in the principal amount not to exceed \$1,612,000, with a maturity date of December 31, 2024 ("Note"), as authorized by Government Code § 53635.2 and Government Code § 53601(e).
4. The ACTTC has requested that the District enter into this Agreement to ensure payment of the Note.
5. On October 3, 2024 the Board of Directors of the District passed Resolution No. 377, authorizing the issuance of the Note and authorizing the President and Chief Executive Officer to enter into this Agreement.

Agreement

1. The District agrees that the ACTTC may retain sufficient proceeds of the December 2024 installment of the Tax to satisfy the principal of and interest on the Note prior to allocating the Tax proceeds to the District.
2. Should the proceeds of the December 2024 installment of the Tax be insufficient to satisfy the principal of and interest on the Note, the ACTTC may retain all the proceeds of the April 2025 installment of the Tax, and sufficient proceeds from each future installment to satisfy the principal of and interest on the Note.
3. The District shall indemnify and hold harmless, to the extent permitted by law, and without limiting the County's obligations under California law to collect the Tax, the ACTTC, the County of Sonoma and the County's officers and employees ("Indemnified Parties") against any and all losses, claims, damages, or liabilities, joint or several, to which such Indemnified Parties may become subject because of the Treasury Pool's purchase of the Note and ACTTC's retention of Tax proceeds. The District shall also reimburse such Indemnified Parties for any legal or other expenses incurred in connection with investigating or defending any such claims or actions.

4. This Agreement is made and entered into for the sole protection and benefit of the Parties and their successors and assigns. No other person shall have any right of action based upon any provision of this Agreement.
5. This Agreement may be executed in duplicate counterpart originals, each of which is deemed to be an original and all of which when taken together shall constitute one and the same instrument.

IN WITNESS WHEREOF, the parties have each executed this Agreement on \_\_\_\_\_, 2024

 Subject: Financial Report for August 2024

**Overall Summary**

August was another strong month for the hospital, building on the positive momentum from July that started the new fiscal year. Just like July, August’s operating margin far exceeded both budget and the prior year, and marked the second straight month in which the hospital posted a positive Operating EBDA margin. This is significant. For reference, the hospital posted a positive Operating EBDA twice all of last fiscal year, so the start to FY 2025 is certainly encouraging.

August was particularly noteworthy due to the launch of two major strategic initiatives: Dr. Walter, our new orthopedic surgeon, began performing surgeries, and our new 3T MRI magnet became fully operational. Both initiatives had a significant impact in August, and both helped drive the volume growth that led to our net revenues exceeding budget by nearly 10% for a second straight month.

August was yet another very busy on the outpatient side. Surgical cases increased by 20% compared to volume levels of the past two months, ER volumes exceeded budget by over 15%, MRI volumes were up 40% compared to recent run-rate, and our OP physical therapy volumes set yet another all-time high.

As mentioned last month, the monthly budget targets will be ramping up as we progress through the first half of the year so further growth is needed to maintain momentum, but this is a very encouraging start to the fiscal year.

## **Drivers in Month's Performance:**

**Revenues:** Operating revenues exceeded the budget by 7% in August. This strong performance was driven by continued surges in emergency room volumes and outpatient activities, including physical therapy and MRI services, both of which had exceptionally busy months. Surgical volumes matched the budget and were 20% higher than the past two months' figures, highlighting the positive developments across the board.

**Expenses:** Operating expenses came in just under budget, totaling \$5.75 million, which is 1% below the monthly budget. While worked FTEs (Full-Time Equivalents) were 2% over budget, this was primarily in areas where volumes significantly exceeded expectations. Year-to-date, operating expenses remain flat with the budget, despite operating revenues exceeding budget by over 10%.

**Volumes:** Overall, volumes were strong in August. While our inpatient census still lagged behind budget and prior-year levels, this was offset by impressive growth in our outpatient departments, particularly in some key areas – operating room, MRI, emergency room, and physical therapy.

**Surgical Volumes:** Surgical volumes rebounded in August, nearly meeting the budgeted targets for the first time since Dr. Brown's departure. We performed 157 surgeries (2 short of the budgeted 159), which is a 20% increase from the 130 that were performed in both June and July.

- **Orthopedics** We mentioned last month that our orthopedic surgical volumes would start ramping up immediately once Dr. Walter started performing cases here, and August backed that up as ortho volumes saw a substantial increase in August. Dr. Walter finished his first month of surgery here at SVH, performing 11 surgeries in a shortened month. This helped deliver a 60% surge in orthopedic volumes compared to July and a 25% increase over the past six-month average.
- **General Surgery, GI** General surgery also experienced a notable rise, growing from 5 to 15 surgeries in August. Gastrointestinal (GI) volumes remain strong and consistent.

**Other Outpatient Volumes:** Outpatient volumes continue to be robust. Both total outpatient visits and total emergency room volumes surpassed their budget targets by over 15% in August. The consistent growth in these areas is encouraging as both areas for the year are up 20% compared to budget and over 10% higher than the first two months of last fiscal year.

- **MRI Volumes** With the new 3T MRI magnet becoming operational in August, we observed a significant spike in MRI volumes. We conducted over 180 exams, which is all-time high for this area and represents a 40% increase compared to historical baseline levels. There is further capacity to grow and we are working with UCSF and other potential referral sources to continue to drive more volume into the department.
- **Emergency Room Visits** Emergency room volumes also maintained their high levels. Although volumes in August came down a bit from July, they significantly outpaced budget and prior year,

and still ended the month averaging 30 visits/day, which signifies a 15% increase compared to volume baselines of the previous group.

- **Physical Therapy Volumes** August was another banner month for our physical therapy department, providing care for over 1,400 visits (AGAIN) in August and setting yet another all-time high in monthly visit volumes (AGAIN). The team has done a great job as they continue to meet the ever-growing demand for PT services. Similar to the volume surge in our ER, physical therapy visit volumes outpace budget by nearly 20% through the first two months of this fiscal year.
- 

### **Other Updates:**

**Banking Update:** The board of directors approved SVH management to proceed with the formal proposal from Summit State Bank during September's board meeting on 9/5/24. We are currently working with Summit Bank and their underwriters and hope to have a transition completed in the next 30-45 days.

**IGT Update:** We received notification that our matching fee pay-in for the Rate Range IGT program will be due November 22<sup>nd</sup>.

### **Capital Updates:**

- **Outpatient Diagnostic Center Project – Temporary MRI:** As has been reported, the 3T MRI magnet has been successfully deployed and is up and running in the temporary structure. We have begun to see an increase in volumes, with some days experiencing double-digit growth. This is encouraging and we expect further growth once we complete applications training for breast and urologic procedures. These trainings are scheduled to be completed this week, after which the 3T will be fully operational for these services. We have begun scheduling breast and urologic procedures for later this month.
- **Outpatient Diagnostic Center Project – Permanent MRI:** Demolition for permanent MRI project set to begin in October. 2 public bids are currently in progress – the MRI site work, and the tie-in to the hospital. Both bids will be presented to finance committee shortly.
- **Outpatient Diagnostic Center Project - CT:** Phase 2 of the CT project, which converts our old radiology space to wound care and cardiology services, is scheduled to open in November.
- **PT Expansion:** General contractor bid for project currently being scheduled.
- **ICU Renovation Project:** Construction set to begin in October.

**Audit Update:** Our fiscal year 2024 financial statement audit is progressing well. We are currently wrapping up open and outstanding items and should be receiving drafts of our financials statements shortly. We are on-track to have our FY24 audit presented to the board of directors during the November board meeting.

**To: SVHCD Board of Directors**

**From: Susan Kornblatt Idell & Jessica Winkler, DNP, RN, NEA-BC, CCRN**

**Date: October 4, 2024**

**Subject: Quality Committee Quarterly Report: 2nd Quarter 2024**

---

Quality performance in the 2<sup>nd</sup> Quarter remains strong. Metrics measured and reported monthly to Quality Committee include.

- Mortality
- AHRQ Patient Safety Indicators
- Patient Falls
- Readmissions
- Blood Culture Contamination
- Stroke Core Measures
- Utilization Management
- Core Measures- Sepsis/ED/Colonoscopy
- Infection Prevention
- Inpatient and Outpatient Satisfaction

Patient volume in the Emergency Department increased over first quarter, averaging **950** visits per month. Volume on inpatient side stable in the 2<sup>nd</sup> quarter averaging **64** discharges per month. Surgical volume holding steady compared to last quarter, at an average of **157** surgical cases per month.

Hospital continues to focus on the following Quality Initiatives-

- All sepsis cases are reviewed by the Director of Quality. Any cases that do not meet the core measure standards for sepsis care are reviewed by the Director of Emergency Services/CNO and the Medical Director of the ED with education and follow up with care providers. There was a decrease in overall compliance with the Early Management Sepsis bundle from 87% in the first quarter to **70%** in the second.
- Stroke care. The hospital continues to meet or exceed all measures regarding stroke care.
- 7 Day readmissions are reviewed by the Director of Quality and the Medical Director of the Hospitalist group. 2<sup>nd</sup> quarter readmission rates (within 30 days of discharge) remain stable at **6.98%** (down from 7.36% last quarter) vs the Medicare goal of < 15%.

- Continued focus on length of stay. In addition to average length of stay we are also monitoring observed over expected ratio (O/E), in which this goal should be less than 1. Each diagnosis is given an expected length of stay (for example pneumonia expected length of stay is 5 days) and if you discharge patient less than that expected length your ratio should be less than 1. Our average O/E ratio in the 2<sup>nd</sup> quarter was **0.86**.
- **Zero** adverse events in 2<sup>nd</sup> quarter
- Hospital wide initiatives surrounding patient satisfaction continue. Quarterly HCAHPS scores were down slightly from last year in four domains, but remain competitive with state and national scores. Improvements in communication about medication, discharge information and care transitions demonstrate the focused work on these processes by the inpatient teams. There was an average of 14 surveys returned per month.

Monthly presentations regarding departmental quality initiatives and data continues. Second quarter presentations included an Infection Prevention Annual Risk Assessment and Plan; Pharmacy QA/PI; Laboratory Services QA/PI; and the quarterly report on the Patient Care Services dashboard.
